# NURSES TAKE A STAND for Patient Care and the Future of the Hospital

Registered Nurses at Good Samaritan Hospital & Regional Medical Center, affiliates of HCA, have been in contract bargaining for several months.

## **WE HAVE MADE PROPOSALS THAT THE HOSPITAL WOULD PROVIDE:**

- SUFFICIENT STAFF for incoming patients
- NURSES AVAILABLE to coordinate care in all patient care areas
- LIFT TEAMS to safely move and transport patients without harm or injury

We want staffing levels so that if you need one of us we can be there for you. So far Good Samaritan Hospital & Regional Medical Center have not agreed to our proposals.

Many of us have worked at these hospitals for decades and we are committed to their future and their role in our community. We reject the hospitals' plans to reduce our benefits. We've spent our lives caring for others and want to be able to retire with dignity and have affordable health care when we need it. The future of patient care at our hospitals requires that Good Samaritan and Regional Medical Center offer competitive benefits with other hospitals in the area. We deserve nothing less.

We will continue to work daily to provide your care, and we will be diligent about the future of the standards for patients and for RNs in this community.

If you want to share your experiences as a patient or as a relative of a patient, please contact us at our website [www.calnurses.org](http://www.calnurses.org).

**Thank you for your support.**

## **A Voice for Nurses. A Vision for Healthcare.**
