

MAINE MED NURSES WIN BACK PAID LEAVE BENEFITS

Without any notice or offer to bargain with us, Maine Med illegally and immorally took away our paid parental, bereavement, military, and jury duty service leaves. We fought for two months and won everything back — plus a few new benefits in our contract — all without giving any concessions to management.

We did not start this fight, but we finished it; and now we're better off than we were before.

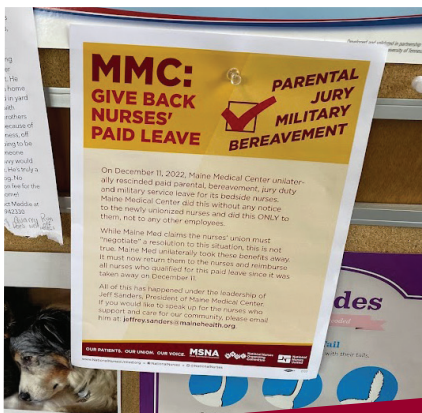

When We Fight, We Win!

“

We sent a really clear message to Maine Med: the same way we will always fight for our patients, we're going to fight for each other. I think they know they can't mess with us the same way anymore.”

— Mary Kate O'Sullivan, RN, P3CD
