# CHEU Contract Bargaining Updates

On Sept 5, at the second session of the negotiation, GMHHC responded to our initial proposals by rejecting all our initial demands and instead, proposed takeaways on our contractual and worker's rights!

In addition, GMHHC proposes to impose changes to our Healthcare benefits beginning 2019 with cost sharing similar to the

Registered Nurses but refused to accept our demands on parity regarding contract benefits and rights offered to the nurses.

GMHHC initial proposal of 3 % each year does not even cover the portion of cost sharing for most of our CHEU members!

Yesterday, September 27, our CHEU bargaining team responded in kind by rejecting all their proposals and directed them to come back with a response that is fair, equitable and respectful.

Our CHEU Bargaining Team sent a strong message to management that we are not second class to anyone and committed to fight for our rights and will refuse to be treated differently!

At this time, no dates have been determined for next bargaining sessions.
