

WE CAN END AIDS, and Robin Hood is here to help

As part of the International AIDS Conference in the U.S., join nurses from around the country to demand a Robin Hood Tax to Heal America, and the World.

A tiny tax of one-half of 1% or less on the trades in stocks, bonds and other Wall Street transactions can raise hundreds of billions to end AIDS, guarantee healthcare, ensure a secure retirement, create living wage jobs and address climate change.

We have the power, JOIN US!
