Wall Street destroyed our economy, and we're still paying. Now they say we face a fiscal crisis if we don't maintain tax cuts for the rich.

We need more economic security, not less. But some legislators are set on reaching a "grand bargain" that would cut the benefits we depend on.

They want to cut our Social Security benefits, raise the retirement age for Social Security and Medicare, and cut Medicaid, forcing families into bankruptcy when a loved one needs long-term care.

Why? To keep Wall Street happy and pay for outrageous tax breaks for the richest 2% of Americans.
